Bitcast Brief : Crucible Ad-Read

Supporting document:

On screen video requirements:

1. Display this video and complete the verbal brief : link

OR

2. Display using the wallet on screen and complete the verbal brief

Example script:

Feel free to us this or come up with your own version that meets the verbal brief above:

"This episode is sponsored by **Crucible wallet,** The Wallet for **Bittensor**.

Crucible does what your other wallet does plus more. It's the **only TAO-native wallet** with **Ledger integration**, making staking simple, safe, and powerful.

Its Safe: audited, Ledger-supported, and built by the founding engineers of Bittensor.

It's Simple: with a clean, intuitive design, *real-time subnet profit and loss tracking* and a clear transaction history.

It's Powerful: featuring a **principal-protected Smart Allocator** that keeps your TAO secure *and lets your rewards work for you.*

Manage your TAO the smarter way with the Crucible Wallet. Download the wallet, there's a link in the description or learn more at **CrucibleLabs.com**."

Built by:

Crucible Labs + team:
Co-founder Ala Shaabana - co-founded Bittensor
Co-founder: David Lawee

Endorsed by:

- Mark Jeffrey - Host of The Hashrate Podcast:
  "The easiest, best TAO wallet yet made, with Ledger support!"

- Sami Kassab - Managing Partner Unsupervised Capital:
  "Crucible finally gives me a wallet that does everything I need and one I can actually recommend with confidence."
